Dear Ms. Kim Doron,

On behalf of the Rare Brain Tumor Consortium and the Hospital for Sick Children, I would like to sincerely thank you for your support of the International Rhabdoid Tumor Meeting. Your support on April 19th – April 22nd 2018, was essential in enabling us to hold a world class conference with a large gathering of international brain tumor experts from across the globe.

The conference enabled many high-level discussions that is going to critically advance our mission to cure all children diagnosed with rare brain tumors across the world. We thank you very much on behalf of all patients who are diagnosed with these devastating diseases around the world each day.

Sincerely

A handwritten signature in black ink, appearing to read 'Annie Huang', with a stylized flourish at the end.

Annie Huang MD PhD FRCPC
